Question	Answer	Mark	Mark scheme	Additional guidance
1	4n - 3	B2	for $4n-3$ oe	Accept a different variable eg $4x - 3$
				Accept $u_n = 4n - 3$, $T = 4n - 3$ etc
		(B1	for $4n + k$ where $k \neq -3$ or is absent unambiguously shown)	$n = 4n - 3$ or $4n^{th} - 3$ gets B1 only
