

**14** 120 students in Year 10 each choose one language to study.

The table below shows information about their choices.

<b>Language</b>	<b>Number of students</b>
French	45
Mandarin	20
Spanish	55

(a) Complete the accurate pie chart to show this information.

In another pie chart the number of students in Year 11 studying French is represented by an angle of  $150^\circ$

Navi says,

“This means that French was chosen by more students in Year 11 than by students in Year 10”

(b) Is Navi correct?

Explain why you think this.
