

- 8 Last year a garage sold a total of 380 cars.
75% of these cars were petrol cars.

(a) How many of these 380 cars were **not** petrol cars?

.....
(3)

Last year the garage sold a total of 56 vans.

7 of these vans were petrol vans.

18 of these vans were diesel vans.

The rest of the vans were electric vans.

(b) Write the number of electric vans sold as a fraction of the total number of vans sold.

.....
