

13 160 people are asked if they are vegetarian.

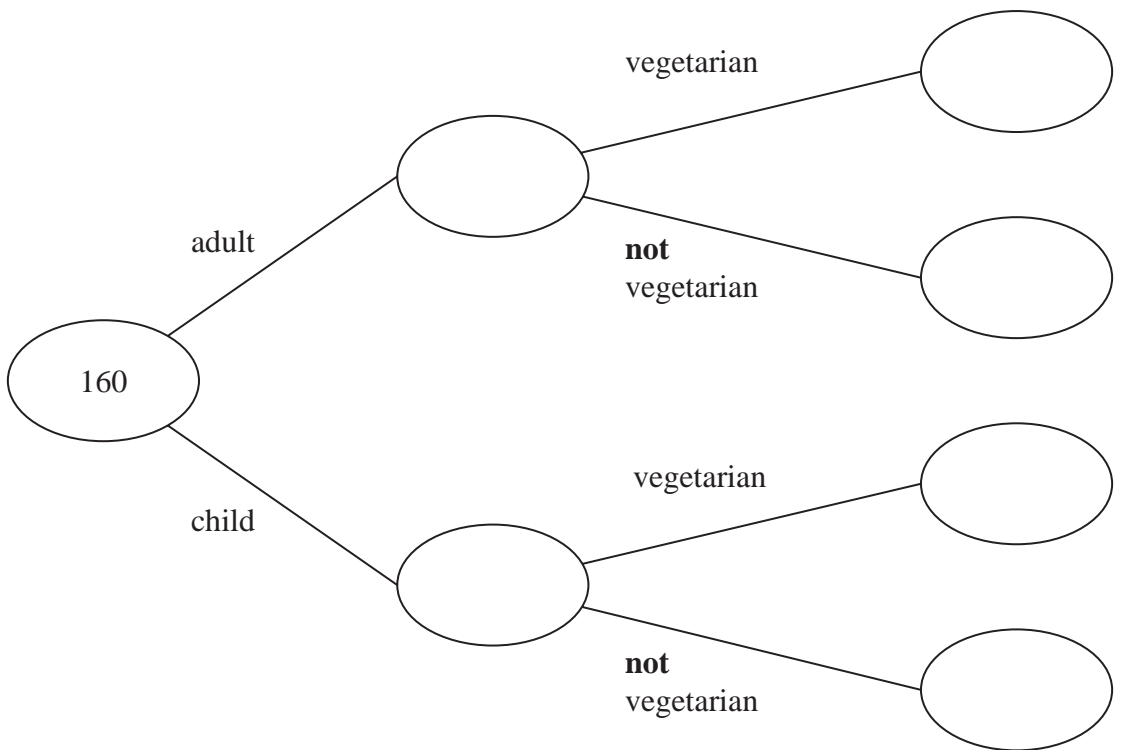

105 of these people are adults.

The rest of these people are children.

37 of the children are **not** vegetarian.

40% of the 160 people are vegetarian.

(a) Use this information to complete the frequency tree.

(4)

One of the people that is **not** vegetarian is chosen at random.

(b) Find the probability that this person is an adult.

(2)
